

Litestack Lightweight Chimney Solutions

Litestack provides a range of complete chimney solutions based on a ready to install, one-piece chimney stack. Lightweight and very easy to use – the chimney is simply lifted into position, bolted onto the roof trusses and leaded in the normal way. These chimneys can be positioned on the gable end, along the ridge or mono pitched.

KENT – 655x655x940mm

NORFOLK – 552x440x900mm

WARWICK – 890x440x940mm

STAFFORDSHIRE – 890x655x940mm

- REALISTIC
- COST EFFECTIVE
- VALUE ADDING

FINISHES

The Litestack Chimney range has now been extended to include both stone and render finishes in addition to our familiar brick chimneys. As with our brick finishes, each chimney can be carefully matched to the materials to be used on your particular project.

Natural Stone

Smooth Render

Recon Stone

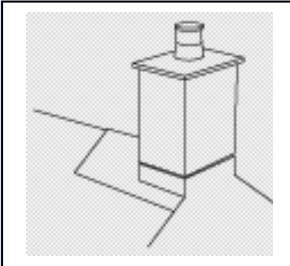

Roughcast Render

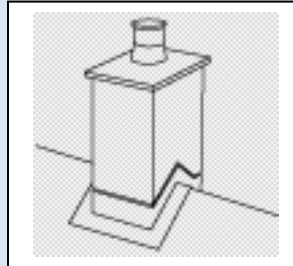

VENTING: All chimneys can be supplied with an approved gas terminal and suitable flue pipes.

POTS: Chimney pots can be mixed and matched to suit the style and size of chimney. Pots are available in a terracotta, Buff or Black finish.

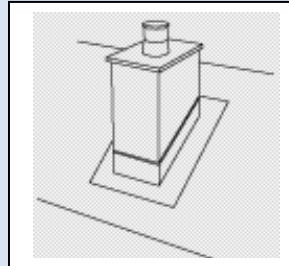

Each chimney is available in an end ridge, mono pitch or mid ridge format. We now have the facility to pre-lead your chimney to enable even more rapid installation.

End Ridge

Mid Ridge

Mono Pitch

INSTALLATION

Each Litestack chimney is supplied with a complete fixing kit and detailed fixing instructions. The chimneys can be installed immediately after the rafters are in place using a telescopic fork lift or light crane.
